

Dear Parent/Guardian /Student
Grades 7-9

Technology provides students the opportunity to personalize their learning, creating genuine learning experiences and increasing student research and organizational skills. Chestermere Lake Middle School is preparing students to become collaborative, innovative and responsible lifelong learners.

We have a limited number of Chromebook computers available students in grades 7, 8 and 9. The use of one of these devices requires parents and students to commit to the school's guidelines in which the student may use this computer during the school day, picking it up in the morning and returning it at the end of the school day (the computer is not to be taken home). Students will be issued the same computer each day and it is their responsibility to return the computer to the Learning Commons in proper working condition.

It is also understood that the students will always adhere to the guidelines stated in Rocky View's Internet Acceptable Use Policy. As well report any operational problems or damage to Mrs. Bell in Learning Commons immediately.

Devices are assessed at the beginning and at the end of this contract. If any repairs are required (beyond normal wear and tear) parents will be notified immediately to discuss damages, and invoiced as necessary. If the computer is lost or stolen, the replacement cost to be paid by the Student/Parent will be \$300.00

I have read the above conditions and understand them completely.

Yes, I _____, would like my child to be given a school device for the year.
